FEATURED ARTIST

Akshita Gupta has been a dedicated MAGSA student for over three years, exploring art through her vibrant paintings inspired by aurora lights, mountains, and serene landscapes. A Chartered Accountant by profession, beautifully balances creativity. The MAGSA Exhibition gave her a platform to showcase her artistic journey one defined by imagination, expressive colours, and a deep connection with nature.

ART HISTORY

Carved into the rock face of a ravine in Maharashtra, the Ajanta Caves hold some of the most stunning ancient murals in the world. Their walls tell the life of Buddha through rich colours, red ochre, yellow ochre, and lapis lazuli imported all the way from Central Asia.

ART TIP

Nature is the best teacher. Step outside, observe colours, textures, and light, let what you see guide what you create.

Blending fashion with fine art, the look celebrated intricate craftsmanship, fluid storytelling, and contemporary elegance. The artistic detailing transformed the outfit into a moving canvas, reflecting how wearable art continues to redefine modern couture.
